

****** PRESS RELEASE: 30th March 2009 ******

Value Generation Limited launch a new comprehensive Toolkit to help firms quickly and efficiently implement Risk Management and Business Continuity.

Value Generation, a Solicitors Regulation Authority accredited training provider, have developed a new Toolkit package to help firms meet regulatory expectations with regard to Risk Management and Business Continuity Planning.

Many professional firms now face a clear regulatory requirement to properly manage Business Risks and to have an effective Business Continuity Plan in place. Solicitors, for example, are required to do this by their 2007 Code of Conduct and any firms regulated by the FSA must also address this area.

Value Generation's research identified a number of challenges. 'Professional firms are increasingly aware of vulnerabilities and the need to address Risk issues effectively' said Paul Johnson, Director of Value Generation, 'but many are unsure how to go about this and there is uncertainty in the professional environment when it comes to preparing a Business Continuity Plan'.

In response Value Generation have developed a complete Toolkit to enable firms to address this area. Their Toolkit includes a Risk Management Policy, Risk Register and Business Continuity Plan. The Toolkit documentation is almost complete, with clients asked to input their own business information to create documents bespoke to their organisation.

Uniquely, Value Generation provide three months of full support to all Toolkit clients, with each client allocated a Business Continuity Professional with whom they can communicate on an unlimited basis for three months after purchase of the Toolkit pack.

'We wanted to create a safe and easy way for firms to develop Risk and Continuity materials', Paul added, 'so firms get the documentation, instructions for completion and when they need it the very best professional advice, all included in one fee. We guarantee to stand behind our clients and provide the support they want, every step of the way.'

To find out more about the Continuity10 Toolkit, please refer to the company's website at www.valuegeneration.co.uk or contact Paul Johnson, Director, on 01420 540273.

End: release date 30th March 2009
